

Control Commission” shall, no later than December 31, 1972, submit to the Administrator for approval, a proposed compliance schedule that demonstrates compliance with the applicable regulation as expeditiously as practicable but no later than January 1, 1975. The compliance schedule shall provide for periodic increments of progress towards compliance. The dates for achievement of such increments shall be specified. Increments of progress shall include, but not be limited to: Letting of necessary contract for construction or process changes, if applicable; initiation of construction; completion and start-up of control system; performance tests; and submittal of performance test analysis and results.

(2) Where any such owner or operator demonstrates to the satisfaction of the Administrator that compliance with the applicable regulations will be

achieved on or before December 31, 1973, no compliance schedule shall be required.

(3) Any owner or operator who submits a compliance schedule pursuant to this paragraph shall, within 5 days after the deadline for each increment of progress, certify to the Administrator whether or not the required increment of the approved compliance schedule has been met.

(4) Any compliance schedule adopted by the State and approved by the Administrator shall satisfy the requirements of this paragraph for the affected source.

(c) The compliance schedules for the sources identified below are approved as revisions to the plan pursuant to §51.104 and subpart N of this chapter. All regulations cited are air pollution control regulations of the State, unless otherwise noted.

§§ 52.826–52.827 [Reserved]

§ 52.828 Enforcement.

(a) Sections 23(1)(b) and 13(7) of Senate File 85, Division II for Iowa are disapproved insofar as they permit the Air Quality Commission of the Iowa Department of Environmental Quality to issue abatement orders (1) that defer compliance with plan requirements beyond the dates required for attainment of the national standards, (2) without the approval of the Administrator, and (3) for reasons not permitted by the Clean Air Act.

(b) Regulation limiting administrative abatement orders:

(1) No order deferring compliance with a requirement of the Iowa Implementation Plan shall be issued by the Air Quality Commission of the Iowa Department of Environmental Quality which does not meet the following requirements:

(i) An order must require compliance with the plan requirement within the times and under the conditions specified in §51.261 (a) and (b) of this chapter.

(ii) An order may not defer compliance beyond the last date permitted by section 110 of the Act for attainment of the national standard which the plan implements unless the procedures and conditions set forth in section 110(f) of the Act are met.

Environmental Protection Agency

§ 52.870

(iii) An order shall not be effective until it has been submitted to and approved by the Administrator in accordance with §§ 51.104, 51.105, 51.261 and 51.262(a).

(2) Notwithstanding the limitations of paragraph (b)(1)(ii) of this section, an order may be granted which provides for compliance beyond the statutory attainment date for a national standard where compliance is not possible because of breakdowns or malfunctions of equipment, acts of God, or other unavoidable occurrences. However, such order may not defer compliance for more than three (3) months unless the procedures and conditions set forth in section 110(f) of the Act are met.

§§ 52.829–52.832 [Reserved]

§ 52.833 Significant deterioration of air quality.

(a) The requirements of sections 160 through 165 of the Clean Air Act are met, except for sources seeking permits to locate on Indian lands in the state of Iowa; sources with permits issued by EPA prior to the effective date of the state's rules; and certain sources affected by the stack height rules described in a letter from Iowa dated April 22, 1987.

(b) Regulations for preventing significant deterioration of air quality.

The provisions of § 52.21 (b) through (w) are hereby incorporated and made a part of the applicable state plan for the state of Iowa for sources wishing to locate on Indian lands; sources constructed under permits issued by EPA; and certain sources as described in Iowa's April 22, 1987, letter.

Subpart R—Kansas

§ 52.869 Identification of plan—Conditional approval.

Elements of the maintenance plan revision to the State Implementation Plan (SIP) submitted by the Governor's designee on May 21, 1998, which address contingency measures for the Kansas City Ozone Maintenance Area are conditionally approved. This includes a commitment to implement the additional reductions as expeditiously as practicable. Full approval of the SIP is conditioned upon receipt of one of the following by June 28, 2000: a request from the Governor of Kansas to require the sale of Federal reformulated gasoline within the Kansas portion of the Kansas City Maintenance Area; adopted regulations implementing the contingency measures identified in the 1992 maintenance plan, i.e., Stage II Vapor Recovery or an Enhanced Inspection and Maintenance Program; or any combination of adopted regulations that will achieve the minimum volatile organic compound reductions (8.4 tons per day) required by the contingency measures identified in the 1992 SIP. In the case of options 2 or 3, upon receipt of regulations implementing these provisions and a request to amend the maintenance plan accordingly, EPA will initiate a rulemaking on this subsequent revision. If the state fails to submit one of the above requirements within the time specified, the conditional approval automatically converts to a disapproval without further regulatory action.
